

Made in Italy

Glem Graziosa 90cm Stainless Steel Cookers

Choice of Dual Fuel or All Gas

GL965EI
Fan forced electric oven

GL965MVI
Fan assisted gas oven

Big Family cookers each with a 132 litre oven

The biggest oven cavity in the Glem range. Ideal for multi level cooking and multi batch cooking. Never worry about the size of your oven again.

A cooktop with wide open spaces for even the largest pots. There is a high power triple ring wok burner right through to a small simmer burner to cater for all cooking tasks. Best of all, there are flame failure safety devices fitted to every burner. The flame goes out? The gas stops flowing.

Gas or Electric?

Gas is a moist heat. Roasting using gas makes a big difference, reducing shrinkage and maximising moisture left in the meat after cooking. Roasts are more succulent and flavoursome, and pastries tend to stay fresher longer. There is also the added advantage of simple 10amp plug in connection.

If the electric oven is the choice then the fan forced oven on the Graziosa has been designed with ease of use in mind so the whole family can cook with confidence. It requires a 15 amp plug in connection and like the gas model it also comes with a full LPG conversion kit.

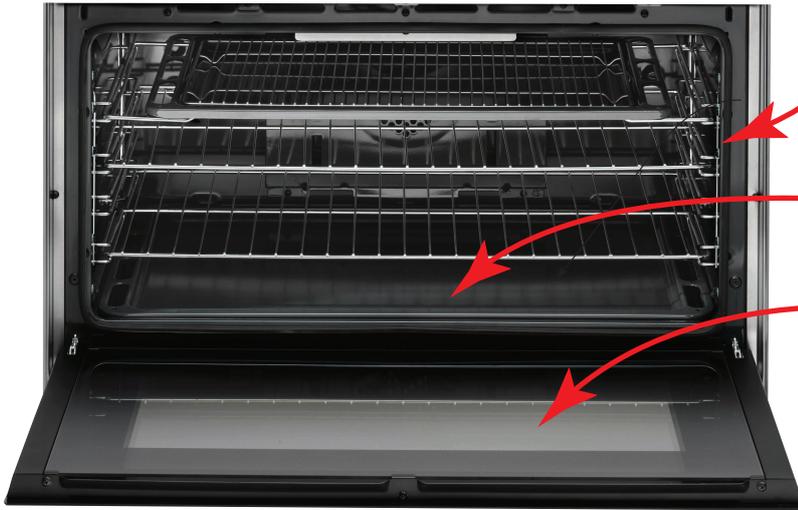

The Italian made family cooker

Made in Italy

Room for the biggest meals.

Designed for cooking

CHROME SIDE RACKS

Other cookers let the racks slide directly on the enamel surface which damages the surface. The side racks simply snap out for easy cleaning.

TITANIUM ENAMEL OVEN INTERIOR

The oven interior is coated in Titanium enamel. The non porous finish makes the oven much easier to clean.

FULL GLASS INNER DOOR

The double glass door has a large window and the inner glass is removable for easy cleaning.

GRAZIOSA SERIES COOKER FEATURES

All Models

FLAME FAILURE PROTECTION

Thermocouples stop the flow of gas in the event of an accidental flame failure.

TRIPLE RING BURNER

The triple ring flame provides efficient and fast heat for high power cooking.

LIGHT & STRONG STEEL TRIVETS

Lighter weight - heavy duty trivets that securely locate into the cooktop.

ELECTRONIC AUTOMATIC IGNITION

Simply rotate the control knob and press for instant ignition.

STAINLESS STEEL LEGS

Adjustable to match a bench height from 890 to 920mm

TANGENTIAL COOLING FAN

Hot air is expelled from the cooker lower temperature on external surfaces.

DIGITAL CLOCK AND TIMER

Shows time of day and can be used as a timer during cooking

GL965EI

Multifunction Electric oven functions

FAN FORCED

Fast heat up and rapid cooking from a circular element around a fan that pushes the heat through for maximum efficiency.

FAN ASSISTED ELECTRIC GRILL

The grill element operates with fan assistance which is excellent for thicker cuts of meat.

GRILL

Closed door grilling for improved efficiency and cooking smell retention.

OVEN LIGHT

15 AMP PLUG IN CONNECTION

GL965MVI

Fan Assisted Gas Oven Functions

STATIC GAS

Gas baking without fan assistance for those times when you don't want air movement in the oven.

FAN ASSISTED GAS OVEN

Gas baking with fan assistance. Eliminates cold spots when cooking on more than one shelf. Great even heat distribution.

ELECTRIC GRILL

Closed door grilling for improved efficiency and cooking smell retention.

FAN ASSISTED ELECTRIC GRILL

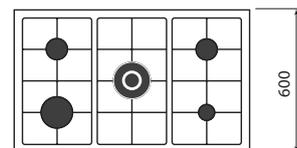

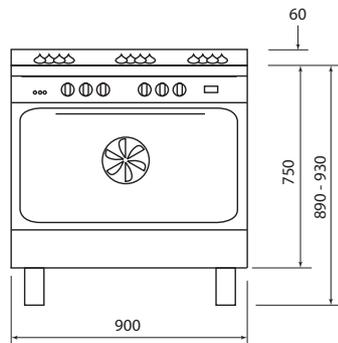

The grill element operates with fan assistance which is excellent for thicker cuts of meat.

OVEN LIGHT

10 AMP PLUG IN CONNECTION
